

Reacfin **Expert Program**

(IA | BE CPD eligible)

Life & Pension

19 Sep. – 17 Oct. – 14 Nov. – 05 Dec. 2022

HyFlex format

Reacfin

The training program is composed of regular sessions to learn and discuss the most recent topics in Life Insurance and Pension. We aim at offering 4 sessions this year and gather a community of interest around those issues. Each session will consist of a presentation with an expert, a practical case from the industry and a discussion with the participants.

The sessions will be offered in HyFlex format, meaning that the participant may choose to be physically present, to participate online, or to watch a recording of the session afterwards.

For whom?

Do you work in an insurance company, a pension fund, a captive, an administration...?
Do your responsibilities require you to work with life insurance or retirement products?
Do you want to learn from the experts what are the main concerns of this sector in the coming months? This program is for you.

Practical information

Dates : September 19, October 17, November 14 and December 05, 2022 – 17:00-19:00 CET

The sessions will take place at **Digitalcity.brussels**, 6 rue Jules Cockxstraat, 1160 Brussels. Registrations for onsite attendance are limited to 20 participants, on a “first come, first served” basis.

Online participation and afterwards watching will happen on a dedicated platform. More details will follow soon and the participants will be invited personally by email upon registration.

The full training program is worth 8 Continuous Professional Development (CPD) points at the Institute of Actuaries in Belgium (IA | BE).

About the agenda

Webinar 1 – The pension reform in Belgium

Monday, 19th September 2022 (17:00-19:00 CET)

The Belgian pension reform is still on the agenda with the new propositions of the Minister of Pension. In this context, different issues around the job market were also discussed recently. The purpose of this seminar is to present challenges, propositions and perspectives around the reform of the first pillar of pension on short and medium time horizon.

Webinar 2 – The 80% rule in the second pillar

Monday, 17th October 2022 (17:00-19:00 CET)

Various debates took place these last months around the tax issues of the second pillar of pension. The topic could be also a part of the future global tax reform. In particular, the famous 80% rule has generated recent practical difficulties and disputes. The purpose of this seminar is to evaluate this actual 80% system and present potential alternatives.

Webinar 3 – Are life annuities an option for pensions?

Monday, 14th November 2022 (17:00-19:00 CET)

Traditionally, second pillar pensions are paid in Belgium under the form of lump sum at retirement age; annuities exist but are marginal. The objective of this seminar is to present a new form of pension annuitisation able to provide better solutions than classical lifetime annuities, both from a marketing and regulatory point of view.

Webinar 4 – Sustainable investments in a long-term perspective

Monday, 5th December 2022 (17:00-19:00 CET)

Environmental, social and governance (ESG) criteria are an increasingly popular set of criteria to screen investments. These standards will gradually become mandatory; companies that do not consider them seriously will find themselves penalized. What are the investment implications for life insurance companies and pension funds? How best to navigate this new methodology?
